

md2slides

Create slides based on markdown files generated by AI

Aim

Create the slides based on the markdown generated by AI

How to generate markdown by AI?

There are many tools you can follow

- General ChatBot
- Agentic GPT
- Markdown workflows

Tools

Many tools are available ref to MARKDOWN + DECK or even rmd with Latex Beamer

- marp

[link](#)

VS codes plug in

One simple click

- Slidev

[link](#)

```
npm init slidev@latest
```

```
npx slidev
```

```
# locally install
```

```
npm i -g @slidev/cli # may have error
```

```
npx slidev
```

```
slidev slides.md
```
